

Road to Freedom

Week 7 - Art of Digging Empty Wells

Instructions

Because we don't seek God, we dig empty wells. For some, we may dig one or two very deep. Others may dig many. For some, addictive destructive behavior(s) are empty wells. For others, we may run to empty wells that are emotional responses or non-destructive behaviors. You may complete this chart throughout the course as empty wells surface. Fill in the columns when they come to light. Make copy of blank chart as needed. See the Sample Chart.

Empty Well	Source	Results/Negative Impact
